

Integration Heads Up!

Goal: Practice recognizing and explaining the major integration techniques from this unit.

How to Play

- 1 Hold a card against your forehead without looking at it.
- 2 Your teammates give clues until you guess the card.
- 3 After a correct guess, move to the next person.
- 4 If you get stuck, pass and return to the card later.

Giving Clues

You may:

- Describe when the method is used.
- Explain the steps involved.
- Give an example problem.
- State a relevant formula.

You may **not**:

- Say any word on the card.
- Use its initials.
- Spell it or give a rhyme.

You have 5 minutes—try to get all 8!
